

## Job offer: Senior Consultant (m/f/d) Carbon Capture and Storage (CCS)

*Hamburg or Freiburg (Germany), or remote*

**Help unlock CCS technologies through carbon markets, climate policy, as well as national and corporate plans for net-zero.**

Perspectives provides globally leading research and consultancy services on **international carbon markets and climate policy**. We are a group of companies located in Freiburg (Germany), Hamburg (Germany) and Alicante (Spain). Our international team consults the private and public sector all over the world. We are globally recognised for our outstanding contributions to the establishment and advancement of international carbon markets. Perspectives shapes and provides first-rate advice on the development of greenhouse gas (GHG) reduction targets, low emission development strategies (LEDS), as well as the new international carbon markets under the Paris Agreement (Article 6) as well as the Voluntary Carbon Market (VCM). We strive for environmental integrity and believe that economic efficiency is key for successful climate policy instruments.

We have successfully started a number of privately and publicly financed large-scale initiatives to enable **Carbon Capture and Storage (CCS) projects (covering avoided emissions and removals)** in carbon markets and EU/national policy frameworks.

### Your role in short

Technically manage our Carbon Capture and Storage (CCS) assignments, guide colleagues and work inside project teams to successfully develop workable carbon crediting methodologies, GHG accounting frameworks and compliance tools for CCS with a focus on environmental integrity.

### Your tasks

- Provide technical management and expertise across all our CCS related assignments
- Lead project teams in developing CCS methodologies under different carbon market standards (particularly Verra/VCS) as well as GHG accounting frameworks and compliance tools at the national, sectoral and project-level
- Independent written input into and quality control of concepts, calculations and project reports regarding technical aspects
- Autonomously manage projects and project teams
- Frequently communicate with clients, project partners and carbon market standards
- Present results to project stakeholders and wider international audiences, and justify outcomes/findings
- Support business development and sales with technical expertise

### Your profile

- Masters degree related to engineering or similar degree with a technical focus
- Solid understanding of CCS in some of its different forms (e.g. DACCs, BECCs, CCS, CCUS, etc.) and associated value chains and its role in decarbonisation
- Strong curiosity to technically understand different possibilities to capture, transport and store carbon across the value chain
- Minimum of 3 years of professional experience, preferably with consulting companies or applied research institutes
- Previous work experience related to CCS regulation and policy (EU CCS Directive, 45Q or similar) is an asset
- Previous experience in working with baseline methodologies (e.g. UNFCCC/CDM, Verra, Gold Standard), IPCC guidelines or corporate GHG accounting protocols is a plus
-

- Fast solution-orientated thinker with an ability to articulate concepts clearly in writing and orally
- Proven ability to manage projects autonomously, including client communication, is a plus
- Excellent presentation and report writing skills that meet highest professional standards
- Willingness to travel internationally (once Covid pandemic allows doing so safely);
- Proficient user of Power Point and Word; outstanding Excel skills
- Full working proficiency in English is a must; French, Spanish and German are considered a plus.

## Starting date

Planned for 1<sup>st</sup> July 2021. Deviating timelines can be discussed in the job interview.

*Applications closing date: 15<sup>th</sup> May 2021*

## Applications

If you are interested in this position and want to work in a flexible work environment, with a young and dynamic team and a lot of space for your own ideas, please send your full application documents in English and in one PDF to: [hr@perspectives.cc](mailto:hr@perspectives.cc).
